Two horizontal dashed lines for writing a name.

Dogs and cats

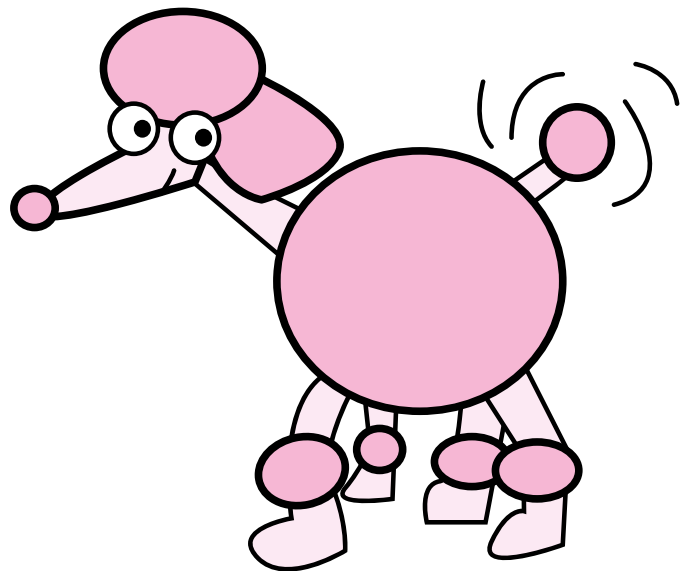

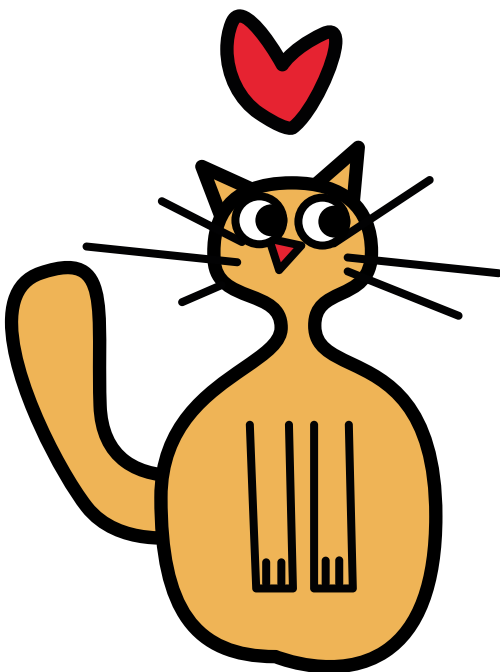

Dogs and cats

What are dogs and cats?

Dogs and cats are **pets** which are very sweet, especially when they are babies. They are animals with fur, that **love being stroked by their owners**.

The dog is both a working animal (because of its sense of smell) and a companion, while the cat is mainly a companion.

Do you have a dog or a cat?

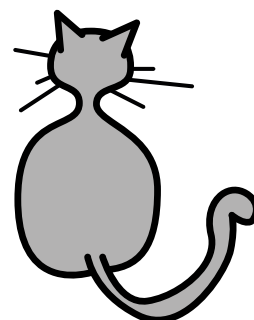

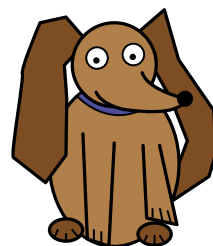

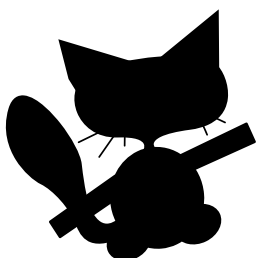

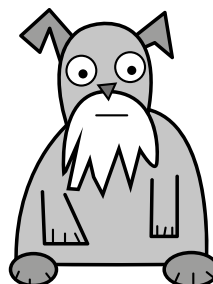

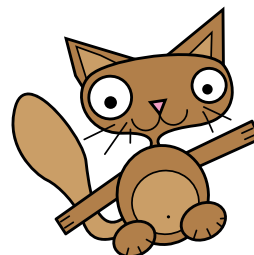

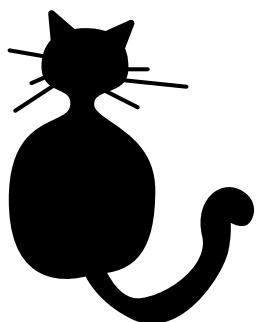

Match up

You will need:

 1 pen

Match up the shadow to the right image
