Cães e gatos

Quem são os cães e os gatos?

Os cães e os gatos são **animais domésticos** muito queridos, principalmente quando são bebés. São animais peludos muito fofos que **gostam que os donos lhes façam festas**. O cão tanto pode ser um animal de trabalho (graças ao seu faro) como um animal de companhia, enquanto que o gato é essencialmente um animal de companhia.

E tu, tens algum cão ou algum gato?
