Câini și pisici

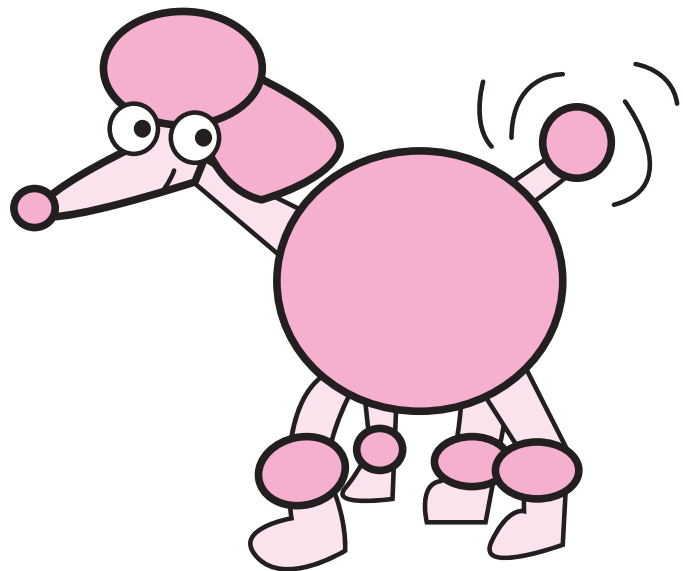

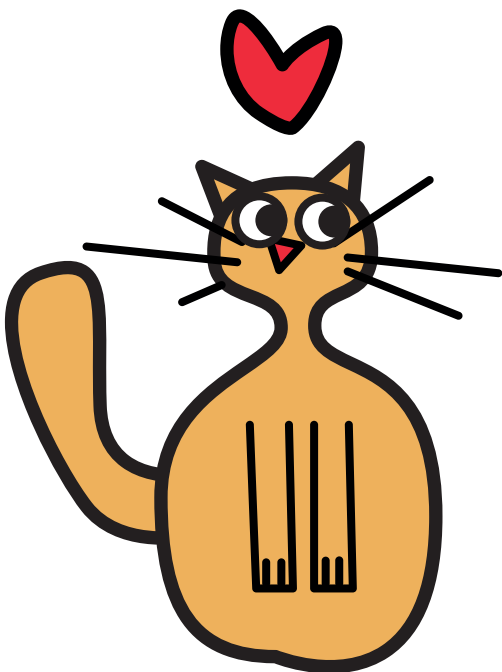

Câini și pisici

Ce sunt câinii și pisicile?

Câinii și pisicile sunt **animale domestice** foarte drăguțe, mai ales când sunt pui. Sunt animale cu blană foarte moale, **căroră le place să fie mângâiate de stăpâni.**

Câinele este animal utilitar (datorită abilităților sale) și animal de companie, însă pisica este doar animal de companie.
